urinary comfort, and urinary tract support.

إي-ماج E-MAG

Effervescent sachets

ماغنيسيوم سترات
Magnesium Citrate

HOW E-MAG WORKS

1

DISSOLUTION

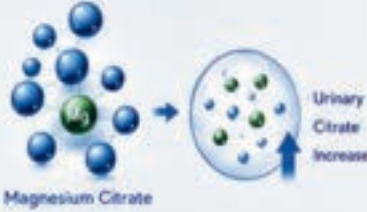

E-MAG effervescent sachet dissolves rapidly in water.

2

CITRATE INCREASE

Magnesium Citrate is absorbed and increases citrate levels in urine.

3

CRYSTAL INHIBITION

Citrate binds to calcium, helping reduce calcium oxalate crystal formation and aggregation.

4

HEALTHY OUTCOME

Supports kidney health and urinary tract well-being.
